# **AIECE General Report Spring 2023 Further Questions on Europe**

Ljubljana, May 2023

Andrej Drygalla, Axel Lindner, Birgit Schultz

## Further Questions

- Do higher sickness ratios significantly contribute to labour scarcity and if so is this a temporary or long-term problem in Europe?
- Are there European countries where currently increasing social tensions are hurting the economy, for example because large strikes reduce the size of labour input?
- In which countries does the EU resilience and recovery facility give a noticeable boost to the economy in 2023?
- Is the political program of a European green transition already boosting investment activity, or, on the contrary, does it reduce the attractiveness of many investment projects?

**Thank you!**
